

Sprint 2 Plan
FitTrak
Trainers
Sprint Completion Date: 11/03/2019
Revision #1
Revision Date: 10/21/2019

- Goal: Have users be able to register and interact with each other (Clients to Trainers and vice versa) and for Clients to be able to track their fitness
- User stories:
 - As a user, I want to be able to create an account and register with a personal trainer
 - Create a working new user registration and authentication system (~4 hours)
 - Create a working trainer registration system (~2 hours)
 - Ensure that the User Interface and database properly returns the correct trainer (~2 hours)
 - As a user (Personal Trainer), I want to be able to properly communicate and interact with my clients
 - Create a personal Trainer profile (~6 hours)
 - Create functionality to assign workouts to Clients (~4 hours)
 - Create private workout appointment scheduling functionality (~4 hours)
 - As a user (Client), I want to be able to set personal goals and share said goals with my trainer
 - Create a fitness tracking functionality (~4 hours)
 - Create a functionality to see how fitness goals are progressing (~4 hours)
- Team roles
 - Ryan Ng: Developer
 - Darren Eam: Scrum Master
 - Brix Joshua Tanhueco: Developer
 - Vishal Vaddadhi: Developer
- Initial Task Assignment:
 - Ryan Ng
 - User Story: As a user, I want to be able to create an account and register with a personal trainer
 - Initial Task: Create an Android activity whose purpose is to handle the registration
 - User Story: As a user (Personal Trainer), I want to be able to properly communicate and interact with my clients
 - Initial Task: Create an Android activity whose purpose is to handle interaction
 - Darren Eam:

- User Story: As a user (Client), I want to be able to set personal goals and share said goals with my trainer
 - Initial Task: Create an Android activity whose purpose is to handle goal setting
 - Brix Joshua Tanhueco:
 - User Story:
 - As a user, I want to be able to create an account and register with a personal trainer
 - Create the User Interface and component on the web page for this functionality
 - User Story:
 - As a user (Personal Trainer), I want to be able to properly communicate and interact with my clients
 - Create the User Interface and component on the web page for this functionality
 - Vishal Vaddadhi:
 - User Story:
 - As a user, I want to be able to create an account and register with a personal trainer
 - Work on the database to be able to handle the data
 - User Story:
 - As a user (Client), I want to be able to set personal goals and share said goals with my trainer
 - Create the User Interface and component on the web page for this functionality
 - Work on the database to be able to handle the data
 - User Story:
 - As a user (Personal Trainer), I want to be able to properly communicate and interact with my clients
 - Work on the database to be able to handle the data
- Scrum times:
 - Monday, 1:05pm - 1:20pm
 - Wednesday, 11:45am - 12:00pm (with the TA)
 - Friday, 1:05pm - 1:20pm
